

## GUIDELINES

- 1 Your sketch will be featured on p5js.org, and you will be credited with a link to your own site. When you send in your final sketch, please include the title and your name as you'd like it displayed, and the url you'd like to link to.
- 2 The sketch should be full screen. There is a template attached that you can build from; it includes the line :  
`createCanvas(windowWidth, windowHeight)`
- 3 The text on the homepage should remain readable. It's ok if things move across the text and temporarily block, as long as it's not difficult to read.
- 4 You can view some previous examples here:  
[http://p5js.org/assets/p5\\_featured/](http://p5js.org/assets/p5_featured/)  
Also see attached images on the email.
